*"The best interest of the patient is the
only interest to be considered"*
Dr. William J. Mayo

INTENT

The MyCare Health Benefit Option provides affordable and timely access to medical consultation by world-class Mayo Clinic in the event of serious illness and/or complex or difficult to diagnose medical conditions. Mayo Clinic is the largest integrated medical practise in the world, with medical specialists representing virtually every subspecialty of medicine.

DETAILS

Pennies per day/per employee or association member can provide the ultimate health benefit option. The MyCare Health Benefit Option provides members and their families access to a collaborative Mayo Clinic consultation.

Highlights

MyCare HBO clients who have been diagnosed with a serious illness or have symptoms of a 'not-yet-diagnosed' illness that has been properly and thoroughly evaluated by attending physician and/or appropriate specialist(s) within 60 days of the first physician appointment may request the following:

- Complete medical file compilation and review by MyCare's Medical Director and OneWorld Assist
 - **eConsult** - transfer of files using Mayo Clinic's **Clinidesk** e-format interface for medical file review by appropriate Mayo Clinic physician(s)
 - Retest of pathology, provided in Canada
 - Additional Specialist(s) assessments required to obtain a diagnosis, or as recommended by Mayo Clinic, performed in Canada
 - Additional diagnostic scans (MRI, CT, PET, etc.) required to obtain a diagnosis or as recommended by Mayo Clinic, provided in Canada
 - Analysis report including a review of current treatment protocol or recommended treatment procedure
 - All test results shared with attending Canadian physician(s) and consultation provided on treatment plan options. Direct collaboration facilitated between Canadian and Mayo Clinic physician(s) when requested
- Travel costs are paid for additional diagnostic scans and specialist assessment(s) in Canada
- **Optional upgrade to MyCare Advantage at a group rate based on age and smoking status**

Major exclusions: Congenital conditions, chronic conditions related medical conditions and bariatric surgery
